

# CONSULTING SERVICES

AMERICAN  
CAMP  
ASSOCIATION  
NY&NJ

The American Camp Association, New York and New Jersey provides expertise and professional consulting to summer camps looking to develop and enhance their program. Our team of experienced professionals can focus on the facility, budget, program, as well as staff training and leadership structure. Consulting services are available to nonprofit and private camps, and can benefit day or resident programs. Our staff evaluates a camp's current practices and offers feedback, recommendations, and specific strategies for improving.

ACA, NY & NJ can provide a report with immediate and long-term suggestions, and also assist in the implementation of changes. Our team makes on-site visits, meets with key staff, and provides an unbiased perspective in order to deliver a comprehensive evaluation of each program.

ACA, NY & NJ aims to enhance the quality of the summer camp experience by helping camps review and enrich their programs. All consulting services by the American Camp Association, New York and New Jersey are provided confidentially. To learn more about how we can assist your organization, please contact our office at 212-391-5208.

"The ACA, NY & NJ staff has been a tremendous asset to our program. After providing feedback about all of our systems and operations, they worked with us to implement changes and improvements. They were always available for conference calls, visits to our site, or anything that we needed."

*JCC Day Camp*

The staff gave us great ideas to enhance our summer program and improve our communication methods. They facilitated a session with our leadership staff and camp parents, helping us gain valuable feedback and insight. We are thankful for their support and strategies to better serve our camp community."

*Day Camp*

"ACA, NY & NJ helped us review and revamp our entire camp program. They gave us great tools for camper engagement, staff communication, and how to utilize our entire facility. We really enjoyed working with them, and will use their suggestions and feedback moving forward."
